COMMITTEE REPORTS:

COUNTY BOARD AND SUPERVISOR REMARKS.

Highlights: Supervisor Kyle Barnhart gives report and update that the County has a new Chairman of the Board. Mike Enslow, an at-large Supervisor from Waterloo, will take over for the outgoing chairman Bob Hayssen from Varick. Chairman Enslow along with the Supervisor from Ovid and himself; have formed a strong group that pushed back agents the old way of thinking at the county level. We've been able to start pushing money down to the South County, at least small amounts. We've invested in the Three Bears complex; we've invested in the watershed organization. We lead the charge on renegotiating the union contracts at the county, helping stay competitive in the labor market.

Chairman Enslow has included me in the process and I expect that he will grant me more in the future.

Next month I be able to share the new committee assignments made by the new chairman and he's informed me that he'd like to place me in a pivotal role to be the liaison between Seneca County, New York State, the federal government, and the Cayuga Nation.

Here in Town, I had two real goals when I got elected- stop the massive sewer plant upgrades that would have raised sewer rates for Village residents to over \$900/year and to build the town hall that the town had worked on for long. I've put in an unbelievable amount of hours, and our new town hall we built during my final year of this term. I'm going to work to make 2023 as great as the year 2022 was. Bringing in hundreds of thousands more dollars in grant and funding to Lodi, beginning the transformation of Main Street when we repurpose this property that we are currently using until approximately June of 2023. Moving us forward into the building that will hopefully be our home and service our community for the next 100 years. We're on roll and I have every intension of keeping it going.

Ag, environments, & infrastructure.

Econ. Dev., Planning, & Tourism.

Deputy Supervisor Latini gives report that he has been in meeting and contact with the Rural Development Economic team. They are preparing a package of documents to be filled out by the property owners. The application is for the value cap value of \$10,000. In further contact with Seneca County, there is no further funding in this year for Seneca Lake. For the improvement of sanitary systems. Not through Seneca county DEC, on Seneca Lake. Making the decision that Seneca Lake is not impaired, for the second year others received funds, and Seneca Lake continues to be infested with alga blooms. Working along with Councilman Trevor Sibley, we have an idea of a different funding source to be leveraged in such projects. Seneca County offered to wave the permit fees, but couldn't offer further funding support.
